

O3 Chemicals

Discover a South African Airconditioning Industry FIRST!

No Other Brand offers Contractors a Service Like This.

o3chemicals.co.za

The background of the slide is a modern office interior. On the left, there are large windows with a view of a city skyline. Several white air conditioning units are mounted on the wall and on the windowsill. In the center, there is a desk with a blue office chair. The ceiling has a grid of lights. A green banner at the top contains the title.

O3 Chemicals Intelligent Resource Management System for Contractors

O3 introduces a bespoke, new business management programme for Airconditioning Contractors to manage their client projects, work teams and accounting – all in one comprehensive package.

When you sign up for this proprietary service, O3 Chemicals will provide you with a ready-built platform where you will be able to input all of the information necessary to manage all your clients by:

- ✓ Client Property
- ✓ Equipment on Site
- ✓ Exact Map Location – to street address
- ✓ Job materials requirements, budgeting and billing

What You Will Achieve with Your Intelligent Resource Management System

- Create Directory of Clients
- List Client Properties and Equipment
- Manage Client Bookings
- Create Service Job Cards – assign Technicians and follow Job Progress
- Assign Jobs/Unit rates – Service or Maintenance cost per Job Type and Per Unit.
- Generate Job Reports – per Property
- Accounting and Invoicing – per Job

Once you have created a Client Register - You will be able to:

- create a portfolio of EACH individual Clients Properties
- create a complete overview of all the air conditioning equipment on each Client Property including Make / Model / Serial No. and what refrigeration gas is being used
- color-code equipment assets according to Good / Faulty / Need Repair

Job Tracking - Maintain an Accurate Job History of all Client Maintenance or Repair Jobs:

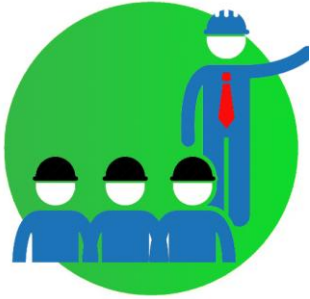

Here you will be able to see:

- who opened a job card
- who is the job supervisor
- when the job was done and Who signed off on it.

You will also be able to Download a job report or Send a job report to your Client.

Job Assignment – Who is Doing What Where?

Enter all the names of all your people so - that you can assign Supervisory roles and Teams:

- assign a Team Supervisor
- create a Job Team
- allocate jobs to Team Supervisors
- provide Team Supervisors with access to the system so that they can see and manage their jobs and teams
- allocate a Job Team to a Job Card which will be automatically sent to the Team Supervisor

Create a Property Archive for each Client

Have a ready-to-hand collection of:

- Floor plans
- Schematics
- Contracts etc.
- Units under Warranty
- Units written off

Create a Site Job Inspection Log

Fine-Tune Your Management:

- allocate who is the Job Inspector
- make the inspector responsible for Unit ticketing and Reporting

Create an Image Library for Each Client

All images of all client units per Property should be kept:

This will include Location-on-site, Model, Serial Number / Type of Unit – so that a team can know what they are working on IN ADVANCE.

Generate a Map for Each Clients Specific Property

The system will generate a Geo-Location street-level map of the property location so that teams can see where they are working, IN ADVANCE.

Create a Global Pricing Matrix

In this self-calculating accounting section, you will set your rates for:

- Repair or Maintenance
- Major or Minor repairs
- Filter swop-outs

Based on your Quantities and Costs

Have an Insight Into Your Business – and an Overview of Your Clients

This proprietary O3 Chemicals Intelligent Resource Management System has been designed and developed by us to provide you with real-time information on all your jobs in the system, at all times.

From here you can monitor staff and material resources, time management, and make costing adjustments where needed, directly on the O3 Management Platform.

No other Aircon Chemical Brand can match this.
